SKILLS

Languages: Python, c, Java, PHP, HTML

MERN Stack: MongoDB, Express.js, React, Node.js

Database: SQL, MYSQL, Mongo

Tools and Technologies: VS Code, Git & GitHub, Power BI, Jupyter Notebook, Excel(Advanced)

Cloud Platform: Microsoft Excel, Google, Oracle

Soft Skills: Team Collaboration, Adaptability, Communication, Critical Thinking, Time Management

LANGUAGES

Malayalam
English
Hindi

INTERESTS

Learning new technologies
Coding mini projects
Music & travelling

PROFILE SUMMARY

Dynamic Data Analyst with a strong foundation in computer applications and mathematics, skilled in C, Java, and Python. Experienced in full-stack development and passionate about data-driven problem-solving. A collaborative team player eager to deliver meaningful insights and solutions. Seeking an entry-level role in data analysis or software development where I can apply my technical skills and academic experience to solve real-world problems.

INTERNSHIP

BYTEMINDERS – FULLSTACK DEVELOPMENT INTERN

Jul 2025 – Sep 2025

- Integrated front-end and back-end systems for a healthcare application using Angular, Node.js, and MongoDB, improving data accessibility and user experience.
- Developed and implemented a full-stack e-commerce application using Java, React, and MongoDB, resulting in a 20% increase in conversion rates.

PROJECTS

Stochastic Process Simulation (11/2023 – 04/2024)

- Simulated Markov Chains, Poisson processes, and Brownian motion.
- Applied probabilistic models to finance and epidemiology.

Game System in C (12/2025 – 01/2025)

- Console-based quiz system with scoring, login, and file handling.

To-Do List Manager (05/2025 – 06/2025)

- Task management system with add/update/delete features using core PHP and HTML/CSS.

EDUCATION

KRISTU JYOTHI COLLEGE OF MANAGEMENT AND TECHNOLOGY – PRESENT

Master's in Computer Application

ASSUMPTION COLLEGE – APR 2024

B.Sc Mathematics, CGPA – 7.2

CERTIFICATIONS

- Full Stack Development – MERN Stack (80 Hours), Capital Infotech
- Certificate of completion of Python as Beginner
- Microsoft Excel – Excel from Beginner to Advanced
- Data Analyst 101 – Certificate of Completion
- PowerBI – Certificate of Completion
- Machine Learning I – Columbia+
- Generative AI in 2025 – Overview and Practice – CodeSignal
- NPTEL – Design & Engineering of Computer Systems
- Java Certificate for successfully completing training program

CONFERENCES & WORKSHOPS

- Presented research paper “The Mindful Matrix” at ICMCTT 2025
- Attended workshop on Data Analytics & Visualization

PUBLICATIONS

The Mindful Matrix: Exploring Social Media’s Influence on Mental Wellbeing

- Presented at the **International Conference on Modern Communication and Technological Trends (ICMCTT), 2025.**
